Graduate Software Developer with experience building full-stack applications using JavaScript, React, Node.js, MongoDB, and C#. Strong foundation in object-oriented programming, REST APIs, and system design through academic and personal projects. Analytical problem-solver with an engineering background and interest in developing reliable, scalable software systems within collaborative technical teams.

Australian Permanent Resident — currently completing Australian citizenship process.

PROJECTS

Service Business Management Web App (MERN Stack)

MongoDB | Express | React | Node.js

- Developing a full-stack web application to manage service bookings and customers
- Implementing authentication and role-based dashboards
- Designing REST APIs for scheduling, pricing, and customer management

Miederswell – E-Commerce Web Application

React | Node.js | Express | MariaDB | GitHub Copilot

- Rebuilt an outdated website into a modern full-stack e-commerce application
- Developed responsive UI components and backend API functionality
- Collaborated in a team to design and deploy the application

Bond Cleaning Quote Automation System

JavaScript | Google Apps Script | Google Sheets API

- Built a dynamic quoting system generating automated PDF quotes
- Integrated Gmail and Google Sheets for automated workflow
- Increased business leads by approximately **50%**

Technical skills

C# | Java | SQL | Git | MongoDB | REST APIs | DevTools | GitHub Copilot | OOP | Authentication Systems

EDUCATION

Information Technology – Diploma of Advanced Programming - TAFE Queensland | Coomera - Dec/2025

Degree: Bachelor's Degree – Civil Engineering - Piracicaba's Engineering School – Brazil -Dec/2016

Qualification in Information Technology ETEC – Technical School of Sao Paulo Dec/2010

PAST WORK EXPERIENCES

I have a diverse background in engineering support roles (2013–2019) and as a business owner in Australia since 2020, developing strong communication, problem-solving, time-management, dedication and reliability. I have loved coding since a very young age and I'm now transitioning that passion into a professional career.
